Update on the new Domestic Abuse Bill

Last week the Government's Domestic Abuse Bill passed its final stage in the House of Commons.

Whilst we are pleased to welcome this groundbreaking piece of legislation, the bill still fails to protect migrant women. No survivor should be left behind. We will continue to push for change so that all survivors have access to the support they need.

New report: Covid-19 and the transport system

In a new report, the Campaign for Better Transport (@CBTransport) highlights the impact of the Covid-19 crisis on the transport system and the need for a future focused strategy from the Government.

The report also outlines a transformative vision of the transport system and calls for 100% zero-emission road and rail transport, improved connectivity post Covid-19 and reforms to the bus sector.

Support and help during pandemic

This can be a particularly difficult and worrying time for adults and children living with domestic abuse. [This link](#) will take you to a page of support sources, please share as widely as possible. It is important that survivors know that they are not alone.

This can also be a difficult and worrying time if you require additional assistance. If you need emergency food or support you can find the contact details of your local food bank using your postcode [here](#).

If you are able to support your local food bank with donations or by volunteering, click here to visit the [FareShare website](#).

You can also visit [this section](#) of our website for information from the NFWI on ways you can help your community, sources of support and other helpful information such as setting up a virtual meeting.

We have a PDF version of the digest available, that you can share with the people around you. Please [get in touch](#) with the Public Affairs department if you would like a copy.

Please also encourage other members of your WI to sign up to receive this monthly digest.
